Contents of Volume 44, 2005

Number one (G321-0156)

A technical framework for sense-and-respond business management 5
S. Kapoor, K. Bhattacharya, S. Buckley, P. Chowdhary, M. Ettl, K. Katircioglu, E. Mauch, and L. Phillips

Aligning technology and business: Applying patterns for legacy transformation 25
H. M. Hess

Declarative techniques for model-driven business process integration 47
J. Koehler, R. Hauser, S. Sendall, and M. Wahler

Empowering the business analyst for on demand computing 67
A. Arsanjani

Toward an on demand service-oriented architecture 81
C. H. Crawford, G. P. Bate, L. Cherbakov, K. Holley, and C. Tsocanos

The role of e-marketplaces in relationship-based supply chains: A survey 109
W. Grey, T. Olavson, and D. Shi

Implementing a learning management system globally: An innovative change management approach 125
K. Martin, M. A. Quigley, and S. Rogers

A model-driven approach to industrializing discovery processes in pharmaceutical research 145
K. Bhattacharya, R. Guttman, K. Lyman, F. F. Heath III, S. Kumaran, P. Nandi, F. Wu, P. Athma, C. Freiberg, L. Johannsen, and A. Staudt

Mapping the future in science-intensive industries: Lessons from the pharmaceutical industry 163
J. W. Cortada and H. E. Fraser

Injecting roles in Java agents through runtime bytecode manipulation 185
G. Cabri, L. Ferrari, and L. Leonardi

Number Two (G321-0157-00)

Opening minds: Cultural change with the introduction of open-source collaboration methods 215
A. Neus and P. Scherf

The value of open standards and open-source software in government environments 227
K. D. Simon

Open-source versus proprietary software: Is one more reliable and secure than the other? 239
A. Boulanger

A history of IBM's open-source involvement and strategy 249
P. G. Capek, S. P. Frank, S. Gerdt, and D. Shields

Contributions to the GNU Compiler Collection 259
D. Edelsohn, W. Gellerich, M. Hagog, D. Naishlos, M. Namolaru, E. Pasch, H. Penner, U. Weigand, and A. Zaks

Integrating Web technologies in Eclipse 279
J. Ponzo and O. Gruber

The Eclipse 3.0 platform: Adopting OSGi technology 289
O. Gruber, B. J. Hargrave, J. McAffer, P. Rapicault, and T. Watson

Aspect-oriented programming with AspectJ 301
A. Colyer and A. Clement

Supporting aspect-oriented software development with the Concern Manipulation Environment 309
W. Harrison, H. Ossher, S. Sutton, and P. Tarr

A Linux-based tool for hardware bring up, Linux development, and manufacturing 319
T. Venton, M. Miller, R. Kalla, and A. Blanchard

Providing Linux 2.6 support for the zSeries platform 331
C. Bornträger and M. Schwidefsky

Virtual Linux servers under z/VM: Security, performance, and administration issues 341
D. Turk and J. Bausch

A middleware performance characterization of Linux using IBM WebSphere Application Server 353
V. K. Anand and W. C. Jamison

Building applications for the Linux Standard Base 369
C. Yeoh

MMBase: An open-source content management system 381
J. Becking, S. Course, G. Van Enk, H. T. Hangyi, J. J. M. Lahaye, D. Ockeloen, R. Peters, H. Rosbergen, and R. Van Wendel De Joode

The Jikes Research Virtual Machine project: Building an open-source research community 399
B. Alpern, S. Augart, S. M. Blackburn, M. Butrico, A. Cocchi, P. Cheng, J. Dolby, S. Fink, D. Grove, M. Hind, K. S. McKinley, M. Mergen, J. E. B. Moss, T. Ngo, V. Sarkar, and M. Trapp

The use of open-source software in the IBM corporate portal 419
N. Yan, D. Leip, and K. Gupta

Experience with K42, an open-source, Linux-compatible, scalable operating-system kernel 427
J. Appavoo, M. Auslander, M. Butrico, D. M. Da Silva, O. Krieger, M. F. Mergen, M. Ostrowski, B. Rosenburg, R. W. Wisniewski, and J. Xenidis

Number Three (G321-0158-00)

Accessibility requirements for systems design to accommodate users with vision impairments 445
P. Brunet, B. A. Feigenbaum, K. Harris, C. Laws, R. Schwerdtfeger, and L. Weiss

Designing software architectures to facilitate accessible Web applications 467
D. Hoffman, E. Grivel, and L. Battle

An architecture and applications for speech-based accessibility systems 485
M. Turunen, J. Hakulinen, K.-J. Räihä, E.-P. Salonen, A. Kainulainen, and P. Prusi

Evaluating accessibility by simulating the experiences of users with vision or motor impairments 505
J. Mankoff, H. Fait, and R. Juang

Managing usability for people with disabilities in a large Web presence 519
M. King, J. W. Thatcher, P. M. Bronstad, and R. Easton

A proposed architecture for integrating accessibility test tools 537
P. Englefield, C. Paddison, M. Tibbits, and I. Damani

Are guidelines enough? An introduction to designing Web sites accessible to older people 557
S. Milne, A. Dickinson, A. Carmichael, D. Sloan, R. Eisma, and P. Gregor

Improving Web accessibility through an enhanced open-source browser 573
V. L. Hanson, J. P. Brezin, S. Crayne, S. Keates, R. Kjeldsen, J. T. Richards, C. Swart, and S. Trewin

Accessibility, transcription, and access everywhere 589
K. Bain, S. Basson, A. Faisman, and D. Kanevsky

Universal access to ambient intelligence environments: Opportunities and challenges for people with disabilities 605
P. L. Emiliani and C. Stephanidis

A mouse adapter for people with hand tremor 621
J. L. Levine and M. A. Schappert

Personalization, interaction, and navigation in rich multimedia documents for print-disabled users 629
H. L. Petrie, G. Weber, and W. Fisher

Semantic triage for increased Web accessibility 637
S. Harper and S. Bechhofer

Number Four (G321-0159-00)

Impact of service orientation at the business level 653
L. Cherbakov, G. Galambos, R. Harishankar, S. Kalyana, and G. Rackham

Analysis and simulation of business solutions in a service-oriented architecture 669
M. Kano, A. Koide, T.-K., Liu, and B. Ramachandran

Impact of service-oriented architecture on enterprise systems, organizational structures, and individuals 691
N. Bieberstein, S. Bose, L. Walker, and A. Lynch

Management of the service-oriented-architecture life cycle 709
D. E. Cox and H. Kreger

Realizing service-oriented solutions with the IBM Rational Software Development Platform 727
A. W. Brown, M. Delbaere, P. Eeles, S. Johnston, and R. Weaver

Service-oriented architecture: Programming model and product architecture 753
D. F. Ferguson and M. L. Stockton

The Enterprise Service Bus: Making service-oriented architecture real 781
M.-T. Schmidt, B. Hutchison, P. Lambros, and R. Phippen

Colombo: Lightweight middleware for service-oriented computing 799
F. Curbera, M. J. Duftler, R. Khalaf, W. A. Nagy, N. Mukhi, and S. Weerawarana

Web Services Navigator: Visualizing the execution of Web Services 821
W. De Pauw, M. Lei, E. Pring, L. Villard, M. Arnold, and J. F. Morar

Business-driven application security: From modeling to managing secure applications 847
N. Nagaratnam, A. Nadalin, M. Hondo, M. McIntosh, and P. Austel

Events and service-oriented architecture: The OASIS Web Services Notification specification 869
P. Niblett and S. Graham

Models for semantic interoperability in service-oriented architectures 887
G. Vetere and M. Lenzerini

Note—Numbers in parentheses after issue numbers denote the issue order numbers.
